**Subject:** Enlisting help from RTCC

Major,

I am respectfully requesting to enlist the help of RTCC in order that my investigators can focus more on investigations and less time as collators. Specifically, I'm requesting assistance with the daily Joint Intelligence brief (JIB), and to act as the "clearing house" for information important to MPD and officer safety.

1. JIB:
  - a. Assist with publishing the JIB on weekends (0800/1600) and when required overnight. The JIB will be emailed to appropriate HSU supervisors/detectives for review prior to publishing.
  - b. Ability to add relevant information to the JIB as it relates to:
    - i. Police shootings/ deaths
    - ii. Riots/ protests
    - iii. Black Lives Matter (BLM)
    - iv. Officer Safety
2. Clearing House for information
  - a. Filter all MPD information, arrests, memos, etc., relevant to Homeland Security, through RTCC.
  - b. RTCC sends received information to the appropriate individuals in Homeland Security.
3. Respectfully request that RTCC designate an officer/analyst(s) to assist with the above tasks and notify HSU of such designee.

- On Thursday, July 14, 2016 at approximately 1705 hrs Frank Gibson (AKA Frank GOTTI) and a second male Monterio Batts entered North Main Station (NMS). Gibson wanted to report a threatening phone call from a police officer/investigator. Gibson stated that an officer called and threatened Gibson's family and to charge Gibson with something that will "stick" (MPD 1607007316ME).

The desk Officer V. Carson (IBM 13253) asked Gibson follow-up questions Gibson and Batts left the precinct. Gibson and Batts were seen circling the precinct after they left. Gibson was asked a lot of questions about police radios, and security at the precinct.

An internal incident report was written because of the suspicious behavior demonstrated by Gibson when he filed this complaint. In an abundance of caution this internal incident report was written because of the numerous non-specific threats to Law Enforcement that have been circulated.

**ANALYST COMMENTS:**

- The recent assaults on officers nationally show that officers are being targeted during their normal course of duty. Uniformed officers in groups should be considered targets of opportunity. Officer safety recommendations currently in place by MPD Command staff, MPD Policy and Procedure, and Officer Safety best practices are highly recommended.
- With the assistance of the SCSO and the use of their Social Media Collator analysts are searching social media for specific threats to officers.
- To date MPD/OHS has put only widely published demonstrations. Starting with this submission lesser mentioned demonstrations, and boycotts are being added. There is a trend that a "boycotts" are turning into demonstrations at these business locations.

There's a war in America right now. Black vs. white. Citizen vs. police officer. Race grievances have become an industry, and business is booming.

The rage is boiling over across the nation. First, videos emerged that showed the graphic deaths of two black men at the hands of police, with what appears (at least on the videos) to be no reason. Protests erupted over these deaths, and then they became violent as one man shot 11 police officers and 2 citizens at a rally in Dallas, Texas, killing 5. That sparked a war on law enforcement officers and a nationwide spree of violence against cops. Some people are even more extreme, declaring open season on white people in general.

But it's about to get even worse.

Updated: The hacktivist group claiming to be Anonymous is now calling for nationwide Day of Rage protests on Friday, July 15th. **This video is NOT on the official Anonymous YouTube channel.** The video below promotes the protests.(WARNING: There is some disturbing and graphic violence in this video.)

## Day of Rage Protests Across America

While I firmly believe that we are being distracted and manipulated so that we stop paying attention to the machinations and corruption of presidential hopeful Hillary Clinton, the fact remains that being anywhere near these protests greatly increases the chance that you could become a victim of violence. When the mob mentality takes over, normally decent people can commit heinous acts.

Use this as a list of places NOT to be on Friday the 15th. While the video by Anonymous *does specify non-violence and denounces the actions taken against police officers that were not involved in these deaths*, with the tagline "Day of Rage" I think it's safe to expect emotions to be running very high on both sides of the line. No matter how great your empathy might be for those who have unjustly lost their lives, these protests are not safe places to be.

These are the locations and times for the protests:

I strongly feel it won't end with people marching and chanting.

From yet another source, there are absolutely protests coming up. And they're going to be big.

*Jacksonville's Black Lives Matter protesters and Pastor R.L. Gundy plan to take to the streets this Friday for a demonstration they say will be larger than last weekend's.*

The safest crowd is one that you're not in. All of these places have the strong potential to become battle zones. Stay home.

And if your home happens to be in or near one of these areas, be aware that your city could be under siege. Make plans to stay safe and hunker down with emergency food and purified water, or to go someplace safer.
